Reading-Berks Intergroup of Alcoholics Anonymous

Twelfth-Step Opportunity

1. Try to get someone else from your homegroup or...
2. Call True P., the Institutions coordinator at 484-651-0600 or...
3. Call any other Intergroup officer or...
4. If it is very short notice, please call Dennis Herne (484) 772-5394

If you are unable to fulfill your commitment...
5. Ability to follow directions.... First, the ultimate authority for this A.A. work is, of course, the group conscience of all A.A.s. Sometimes, for the good of A.A. and for the good of those we are trying to help, we as individuals have to do things differently from the way we might ourselves like. Second, the professional treatment facility is in charge of its patients or clients and is responsible for them. If A.A. members do not conform in every way to the rules and regulations of the facility, it has a perfect right to keep A.A. members out.

4. Freedom from vanity.... We simply put the message in front of the alcoholic in treatment. What the alcoholic does with it is not our legitimate business. He or she may flush it away, or ignore it, or use it well in recovery. The alcoholic needs to be free to choose without our getting vain if the message is used, or angry or discouraged if it is ignored.

3. A common sense approach.... Our Fellowship of amateurs firmly resists getting organized, as A.A.s know... But professional treatment facilities have to be well organized to do their job and to meet various legal requirements. Their personnel often have to be professionally trained if the agency is to be properly licensed... They do not take their duties lightly, nor do they appreciate jokes at their expense. Alcoholism is a grave illness. Our A.A. message of hope, experience, and strength is not to be treated lightly either. ...

2. Personal experience of alcoholism and recovery.... This, of course, is the chief, and unique, qualification we have. You do not need to have been hospitalized yourself to carry the message into a correctional institution. What is important to share is the pain we once felt and the joy in recovery we now feel.

1. Some good sobriety.... For exactly how long, nobody can say. ... If you have all the other qualifications, it may not be very important how many A.A. anniversaries you have had. Ask some longer-sober members about it.

Note: This is an abridged version of the suggestions found in "AA in Treatment Facilities", pg 10-13. Please reference the pamphlet, or our website, for the full version. http://www.readingberksintergroup.org/speaking_commitment.htm

What qualifications should an A. A. member have to carry the message to treatment facilities?

7. Broad knowledge of A.A.... To be the best possible message-carrier, it helps to know all the local groups and lots of different members, of many sorts.... In addition, a thorough knowledge of A.A. literature helps. It would be good to know what A.A. material would be helpful to a potential member who may be very different from you.... The deeper and broader our understanding of all aspects of our Fellowship (including all three of our legacies: Recovery, Unity, and Service), the more we have to offer the troubled newcomer.

8. Ability to stick to our own business.... We carry our own personal message to patients in a treatment facility, not the professional staff. We have no business criticizing any professional agency or person, or telling them how to treat or not to treat alcoholics. Those are not A.A. purposes. ... We have had the personal experience of alcoholism, which we now share, along with what we have learned about recovery. Our suffering and the recovery we now enjoy can give valuable hope to other still-suffering alcoholics. More than that -giving it away freely, without any thought of reward, strengthens our own sobriety. With Permission: AA in Treatment Facilities, pg 10-13 Alcoholics Anonymous World Services, Inc.
